

Chindam Abhinay

📍 Mancherla, Telangana 504231 | ✉ abhinaychindam@gmail.com | ☎ [9347726719](tel:9347726719)

Education

B.Tech (AI & ML) – Hyderabad Institute of Technology and Management

CGPA: 7.1 | 2023–2027

Class XII (CBSE) – Jawahar Navodaya Vidyalaya

CGPA: 8.9 | 2023

Class X (CBSE) – Jawahar Navodaya Vidyalaya

CGPA: 8.5 | 2021

Experience

TASK HITAM Training Program - Web Development

2024

- Gained hands-on experience in Django for building web applications
- Worked on database management, user authentication, and backend development
- Developed projects including an eCommerce website using Django, HTML, CSS, and JavaScript

TASK HITAM Training Program - Machine Learning

2025

- Applied machine learning techniques on Netflix dataset for data analysis
- Performed data preprocessing and exploratory analysis to identify content trends
- Built a classification model to predict content categories based on features like genre and duration

Skills

Languages: Python, Java, C

Libraries/Frameworks: TensorFlow, Scikit-learn, OpenCV, PyTorch

Data Tools: Pandas, NumPy, Matplotlib, Seaborn

Tools: Git, Jupyter Notebook, VS Code

Projects

Heart Disease Prediction | [github](#)

- Developed an ML model using Python to predict heart conditions

Iris Species Prediction | [github](#)

- Built a supervised learning model to classify iris flower species

Deepfake Analyzer

- Built a model to detect manipulated images/videos using computer vision

Plagiarism Detector (NLP) | [huggingface](#)

- Developed a system to detect text similarity using NLP techniques

NGO-Restaurant Connect Website

- A website that builds a bridge between NGO's and restaurants

Crossword Puzzle Generator

- Created a Java application to generate crossword puzzles from input data

Gate Pass Management System

- Developed a web-based system for digital gate pass request
